Categorical UAA for Recreation - Outreach August 2013.pptx

Attached are the slides; just a reminder that the UAA changed quite a bit between this presentation and the final version. These changes occurred between the draft that was released in August 2013 and the draft that was released in January 2014. What changed the most were the access criteria; we removed the "weightings" and just went with the default buffers. You can get the updated access table from the UAA or from the webmap.

The web map might be kind of clunky to open up on the fly, but you could try to put aside some screen shots into a powerpoint and then show the webmap live so he can see what it looks like. You could also use the "bookmark" feature to potentially show a site you identified up front.

Most of what you need should be on our website, but let me know if there are other things that would be helpful for your presentation.

Lindsay,

Would you be willing to send me your slides from the public meeting? Any advice on demoing the webmap for the RA?

Tonya
